b) claimant information:

Michael W. Beam Claim # 13410 (Note: Claim# 6022 is a duplicate of this claim)

Claim Amount \$19,186.23 USD

Claim Amount represents my individual half of FY09 STIP bonus. This claim assumes the following:

- ½ Bonus – Company Performance – Assume 0% payout or 0\$
- ½ Bonus – Individual performance – Assume 100% payout or \$19,186.23.

c) concise statement of relevant facts:

As indicated in my claim submission, the following facts should be considered:

- I was indeed eligible for a bonus of 25% of my annual salary for FY09 ending 2/28/09.
- I have made no assumption of value of the portion of the bonus that represents company performance
- I remained employed through the normally defined payout period of mid May 2009. I continued as a full-time employee on the Circuit City Wind Down team through July 17, 2009.
- I made an assumption of a 100% payout for my personal half of the bonus calculation. In past years (including 2008), I received an above average rating which would have given 110%+ of my personal achievement half of the bonus.

0835653090917000000000035

As a Director in the IT Business Applications area, my objectives were based on project implementations, business application support, financial budgeting, and staff development. All goals were met related to these objectives, including a highly successful Chase Platform Upgrade project in July 2008, successful peak season support where I served as IT/Business coordinator in Circuit City's Peak Season Command Center during key weekends of November/December 2008. I was ultimately chosen as the IT leader for a majority of wind down efforts once liquidation was announced. A 100% bonus payout from my performance should be awarded for "meeting expectations".

d) No additional paperwork is being submitted other than this objection response and the original paperwork with my claim submission.
